Letter No Cs L A R 38/33 34 dated 19-2-35 from the Deputy Commissioner Bangalore District stating that, in connection with the acquisition of lands in Jodi Kempapura Village required by the Bangalore Woollen Cotton and Silk Mills Co Ltd, the Company has requested that the present right way across the said lands may be diverted along the Electrical Main which also crosses the land and requesting approval for the deviation of the road

It is reported that the Villagers have no objection to the deviation proposed provided the Hirvathakatte which is at present in the Vone is protected and people are permitted the right of worship of the trees over the Katte Since the proposal has emanated from the Company itself, the deviation will perhaps be done at the Company's cost As location of the roadway the present agreement will have to be suitably altered

so far as the original agreement is varied from The proposal is agreed to by the Director of Industries who has stated that the deviation of the pathway will facilitate the lay out of the Labour colony for which the land was given The ryots of the village have also agreed to the proposal subject to the condition that facilities are given to them to go to the Aswathakatte in the existing form for worship

15) In the agreement entered into between the Dy Com and the Rules reference is specifically made to allow the pathway at the present place for the passage of men, cattle &c The agreement has been published in the Gazette dated 4-1-24 under section 43 of the Land Acqn Regn and it has to be regarded as part of the Regulation so far as regards the terms on which the public shall be entitled to use the work for which the land is required This is not perhaps a bar to the proposed deviation.

16) The Dy Com has reported that the pathway in question is treated as Govt land and was not therefore included in the list of lands acquired for the Rules There seems to be no difficulty to give over this pathway to the Rules and take from them the area comprising the proposed pathway

With reference to the agreement entered into with the Government by the Bangalore Woollen Cotton and Silk Mills Co Ltd Bangalore in connection with the acquisition of certain lands in Jodi Kempapur Village Bangalore Taluk required by the said Company for the construction of a Model Village for the Company s Workmen (Vide Government Notification No L 4909/M1 79-32-34 dated 2nd January 1934) I have the honour to state that as per Clause 4 of the said agreement, the company has agreed to allow a road of an even width of 20 feet throughout at the place mentioned in the plan attached to the agreement for the passage of men cattle and carts and to keep it open for traffic the cost of maintenance of this road being met by the Company itself

The roadway referred to in the agreement runs along the Yoni" indicated in the plan herewith sent and the Company wants to deviate this roadway along the Electric Main which also runs across their lands The enclosed plan indicates both the existing path-way and the proposed deviation

On a reference made by the Managing Director of the Mills, enquiring if the proposed deviation would meet with the approval of the Director of Industries and Commerce in Mysore wrote to this office on 7-9-1934 stating that the proposal is made with a view to have an easy layout for the construction of the Labour Quarters on this land, that the proposed deviation will does not cause inconvenie to any one, as it merely involves a slight change in the direction and that this deviation will also be helpful to the Electrical Department in asmuch as the instion of the Electric lines will be made easier (Copies of their letters re encl in the recorders.

The Sub Division Officer, Bangalore Sub Division who inspected the spot and consulted the villagers reports that the people have no objection to the proposed deviation provided the Aswatha Katte which is in the Voni is protected and the people are permitted the right of worship of the trees o the katte

As the entire area of the deviation road lies within the Company land itself and as it will also be helpful to the Electric Department as opined by the Director of Industries and Commerce I recommend that the devia tion now proposed may kindly be approved

If the proposal meets with the approval of Government a fresh agre ment will have to be executed so far as it varies from the original agreement

With reference to our discussion on the proposed development of our property in Jodi Kempapur village as a colony for work people, I write to enquire whether Government would permit the present right of way to be moved to the westward, so that it would follow as closely the electrical mains which also crosses this land I enclose a map which shows the present right of way and also the proposed diversion under the electrical mains The agreement under which this land was handed over to us by Government provides for the right of way as follows --

> 'Out of the said land , a road way of an even width of 20 feet throughout shall be left at the place and in the manner indicated in plan 1 hereunto annexed for the passage of men, cattle and carts, the company hereby agreeing to maintain this roadway at its cost and to keep it open for traffic

I presume it will be necessary for a fresh agreement to be signed whereby the location of the roadway should be altered Plan 1 referred to above is the same plan as is sent with this letter
